RULES GOVERNING THE PIPING SCHOLARSHIP

The annual St Andrew's Society Piping Scholarship Award will be made by the General Committee of the Hong Kong St Andrew's Society to an individual, born in Hong Kong or resident in Hong Kong, who, having achieved proficiency in piping, wishes to further his or her piping skill, either via an accredited piping music qualification or via competition in recognised piping competitions preferably in, but not limited to, Scotland.

Candidates for the award are to be sought from the piping community in Hong Kong. Nominations are to be supported by a letter from the Pipe Major of the band the individual currently plays with or the individual's tutor/piping instructor. Candidates with a proficiency in other instruments e.g. drums may be considered.

The Committee's decision as to the eligibility of any candidate to receive the Award in any year is to be final and conclusive. If two or more candidates are nominated in any year, who are, in the opinion of the Committee, of equal merit, the Committee shall share the award between them.

If in any doubt as to the piping proficiency of any particular candidate the Committee may seek the advice of a panel of piping experts.
